Re: Donahue Wildman
27910 Pacific Coast Highway
Malibu, California

Dear Ms Grimm:

As a follow-up to our December, 1988 telephone conversation, and my December 8, 1988 correspondence, I attempted to contact you by telephone in January, 1989. The purpose of my call was to arrange for a meeting with you and Peter Brand to further discuss the feasibility and viability of the alternatives presently available to the Coastal Commission and Coastal Conservancy in the area of Mr. Wildman's property.

Appreciating the fact that I am sure you are quite busy, and for that reason have been unable to return my telephone call, I thought that I should write and request your consideration of some time, in the near future, when we can get together to meet.

I am also attempted to contact Pam Emerson, of the Coastal Commission staff, to determine the status of the Black Tor application. It is my last information that the Staff recommended denial of the Black Tor application. However, I am not aware of any further activity pertaining to that property.
